Experience

2017 – Now **Home Tutor**

Been teaching O-Levels subjects for 6 years.

Taught 10 different subjects in that time.

Specialize in Mathematics, Physics, Computer Science, and English.

Nurtured the sense of responsibility and the need for punctuality.

Perfected the ability to accurately and justly grade exams.

Mastered how to organize and manage different lectures and students

Achievements

2019 - 2020 **International Maths Olympiad**

I was amongst the top 15 students from all over Pakistan for the selection of the team that would represent Pakistan in IMO. I was at that time in my first year of A-Levels and we took a screening test and the top 50 shortlisted students were then put through a training camp and whittled down in preparation for IMO. Unfortunately covid struck that year and the competition was called off.

2022 **CodeRush**

I participated in the CodeRush Competitive Programming competition held in ITU during my second semester and my team Trifecta managed to come up third against all the odds.

2023 **PU-Con**

Most recently I participated in the PUCon Competitive Programming competition held in Punjab University and my team Trifecta managed to secure second place.

Education

2021- **Bachelors in Computer Sciences**
ITU - Lahore – Pakistan

2018-2020 **A Levels**
LGS JT - Lahore – Pakistan
2 A*, A, B
Mathematics, Computer Science, Physics, Further Mathematics
